## ✍ EXPERIENCE

### Full-Stack Engineer

CUVVA, LONDON (OCT 2022 – PRESENT)

One of three engineers that made up the Full-Stack discipline. My main responsibilities included building and deploying continuous improvements on our internal dashboard (*React, Typescript & CSS (styled-components)*) enabling the Customer Operations team to resolve customer queries as quickly as possible.

### Senior Front-End Developer

GRAZE.COM, LONDON (SEP 2021 – OCT 2022)

Sole front-end developer on a team of 4. Deliver features to the legacy custom subscription service front-end (*HTML (Twig), CSS (Less), JavaScript (Vanilla, jQuery)*), the greenfield European market service (*React, Typescript*) and the DTC Shopify stores (*Liquid*).

### Web Developer

FREELANCE, LONDON (JUL 2014 – PRESENT)

Developed a portfolio of websites designed, built and hosted (*HTML, CSS, JavaScript (Vanilla, jQuery), React, Gatsby*). Experience with web-hosting, SEO and UX/UI design (*Figma*).

### Front-End Developer

ACCENTURE, LONDON (APR 2020 – SEP 2021)

Part of an E2E full-stack feature team for an international communications client. Developed a e-commerce site with React/MobX and Scss, tested with Jest/Enzyme. Introduced to Typescript and Cypress.

### Full-Stack Developer

ACCENTURE, LONDON (FEB 2018 – APR 2020)

Worked with a number of languages including Python and Node.js on the Accenture Cloud Platform (ACP), this role earned me a wealth of experience with many core AWS services.

### Big Data Engineer

ACCENTURE, LONDON (DEC 2017 – FEB 2018)

Manipulated Big Data for a national postal and courier service client using Apache Spark, Scala and HiveQL.

### AWS Engineer

ACCENTURE, LONDON (SEP 2017 – DEC 2017)

Created AWS Lambda functions (*Python*) for a disaster recovery solution for an international telecommunications client.
